1991 COMPETITIVE EXAM WORKSHOPS

The Staff Union is once again sponsoring workshops to help prepare candidates taking the competitive examination for promotion from the General Service and related categories to the Professional category. The workshops will be held every weekday from 22 July through 6 September between 1:15 and 2:45 p.m. Arrangements are being made for speakers to address topics covered within the general and specialized portions of the examination. There will also be workshops on drafting.

To minimize the number of calls received in the Staff Committee Office on workshop timetables, staff members are reminded that an outline of scheduled speakers and location will be available at the workshops and posted on bulletin boards throughout Headquarters.

We ask that those participating make a special effort to be resourceful and form a self-supportive network. Participants are therefore encouraged to find study partners who can tape or take notes for them if they are unable to attend a specific workshop. Audio recordings of workshops from this or previous years will not be circulated.
